6TO PRIMARIA  
Wednesday 22<sup>th</sup>

INICIO

En Student book se va a leer la lectura sobre el espacio de la página 66.

**PLANET GAMMA** 

We've arrived on Planet Gamma. We came in a manned spacecraft. We've been here for three days. We're weightless here because of the microgravity so we're wearing heavy space boots. They keep us on the ground. We can feel the ground moving. It might be tectonic plates shifting.

We have seen some creatures here! They don't look like human beings. They're very tall and they don't seem to sleep. Their heads are enormous. Maybe their brains are enormous, too! So far, we haven't been able

to communicate with them, but they seem friendly. They eat by foraging. They forage rocks and stones! We've been taking pictures of them and sending them back to Earth by satellite.

We've heard some strange noises. They sound like strong vibrations. Maybe it's a volcano! The atmosphere here is very still – there's no wind at all. We feel a bit scared and we think something is going to happen!

DESARROLLO

De acuerdo a la lectura se va a llenar el cuadro de la página 66 con los siguientes apartados; Señales, sonidos y sentimientos.

**2** Read the story again and complete the chart. Write notes for Planet Gamma and your own imaginary planet.

**PLANET OMEGA**

We've landed on Planet Omega, deep in interstellar space. Strangely, there was a docking port for spacecraft here. Have there been other visitors before us?

The ground is soft and heavy, and we sink into it with every step. We're the opposite of weightless here. The gravity must be very strong! Everything we do takes a lot of effort.

We haven't seen any fauna yet, but we've seen some flora – <sup>1</sup> **some very unusual plants**, in fact. We've been taking pictures of the landscape, which is an odd orange color. We've also heard some very strange noises. <sup>2</sup> **like water going down an enormous plug hole.**

<sup>3</sup> **We feel excited, but a little solitary** here, too. We've been thinking about leaving soon.

## EVALUACION

Se evalúa la página 66 de student book y la actividad de la lectura.
